Dear Applicant:

Thank you for inquiring about the process of plaquing a historic site or structure located in McHenry County. It is our hope that the following application will provide a lasting record of the property, site and structure. Plaquing a historic site or structure is an excellent means of calling attention to the heritage of McHenry County. It is not a legal proceeding, and thus does not interfere with the buying and selling of the property. The plaque will remain with and on the structure or site...not with the owner of the property at the time of plaquing.

Plaquing by the McHenry County Historical Society does not make the site eligible for reductions in property taxes. Plaquing also does not require you to open the site or structure to the public. Plaquing does not prohibit the owner from altering the structure or site (i.e., remodeling or additions). If alterations are made which detract from the architectural or historic integrity of the structure or site, you may forfeit your privilege of displaying the plaque if it no longer meets the Minimum Standard for plaquing

The cost of the plaque is currently approximately \$155 and is the responsibility of the applicant.

Please complete as many items as possible. Not all questions will be applicable to your particular property. Contact the museum (815-923-2267 or info@mchenrycountyhistory.org) for any further guidance.

Please return your application to the Historic Sites Committee. Additionally, please include a current photograph of the site or structure along with copies of supporting documentation of the age of the site or structure to:

Historic Sites Committee
McHenry County Historical Society
P.O. Box 434
Union, IL 60180

Upon receipt of the application, the committee will arrange a time to conduct a field investigation of the site.

Revised January, 2017
